Virtual Workshop: RNA-seq (de novo)
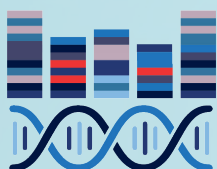

August 19-21, 2025
10:00 am - 2:00 pm EST

Unlock the power of de novo transcriptomics in this hands-on virtual workshop! You'll learn how to design an RNA-seq experiment, process raw sequencing data, assess data quality, assemble transcriptomes de novo, and perform differential expression and functional enrichment analyses using R and the Linux command line.

Cost: $500 ($400 for UConn affiliates)
**Where**: Live Sessions via MS Teams | Recordings distributed
Register now: https://bioinformatics.uconn.edu/cbc-workshops/
