

Introduction to Microbial Ecology Workshop

December 15-18, 2025
10:00 am - 4:30 pm EST

Learn how to process microbiome data from raw DNA sequences to publication-quality figures. This hands-on workshop covers sequence quality control, OTU clustering, taxonomic identification, and data analysis using mothur and R. Participants will explore community ecology statistics and create reproducible, high-quality visualizations. No prior command line experience required.

💰 Cost: \$786 (\$570 for UConn/UCH affiliates)

📍 Where: In-person at UConn Storrs campus
