

Virtual ChIP-Seq / ATAC-Seq Workshop

July 28-30, 2026
10:00 am - 2:00 pm EST

Ready to explore chromatin dynamics?
Join our virtual ChIP-Seq / ATAC-Seq workshop and
gain hands-on experience analyzing DNA-protein
interactions and chromatin accessibility. Learn
quality control, peak calling, and downstream
analysis while working with real experimental
datasets. Perfect for researchers of all levels — no
prior bioinformatics experience required!

💰 Cost: \$600 (\$500 for UConn affiliates)

📍 Where: Live Sessions via MS Teams | Recordings distributed
